TUCSON NEWS.

VOL. 4. TUCSON, PIMA COUNTY, ARIZONA, DEC. 11, 1897. No. 90.

BRIEF ITEMS.

Hon. J. H. Martin, wife and two daughters arrived in this city this morning, en route to the Byron Hof Springs, Cal. While in the city they will be the guests of Mr. and Mrs. P. B. Zeigler.—Star.

Mrs. M. M. Parker, Geo. M. Parker and Grace M. Parker, of Pasadena, Cal., wife and children of Professor W. M. Parker, president of the university of Arizona, arrived in the city last night and are quartered at the New Orndorff for the present. They will reside in this city permanently hereafter.—Citizen.

Herbert Lang, whose high standing as a metallurgist and smelter expert is established, is in the city at the instance of the Saginaw Mining Co.'s management. He will make an exhaustive examination of the Saginaw ores, which vary greatly. Based upon his report extensive reduction works will be erected by the company and its operations conducted on a very large scale.—Star.

The Ladies' Whist Club had their regular Saturday afternoon meeting yesterday at the residence of Mrs. Major Black, on Pennington street. There was a full attendance of the members, and the play was doubtless unusually scientific, since the fair sex are wellknown to be especially adapted to the high intellectuality necessary to proficiency in whist. Especially is this so of Tucson ladies.—Star.

MINING NEWS.

What is Going on Among the Metal Searchers.

Many prospectors and mine owners are busy doing assessment work on their claims, and the hills and mineral ranges hereabouts are alive with busy workers.—Tombstone Prospector.

The latest information from Mammoth is that the Mammoth mine is working about 25 men. The double compartment shaft is down to the 600 foot level. However, it will require about three months more of preparatory work before the mine will really "start up." The Mohawk mine is running full-handed.—Star.

The Gold Cliff mine at Pearce is still showing up very flatteringly. A lot of zinc shavings were forwarded to the mine today from here. Reports from the property, now under the superintendency of F. P. Hewitt, are encouraging. The force is being increased and the cyanide plant is kept working constantly. Preparations are also being made to put in crushing machinery and increase the capacity of the cyanide plant, which is giving good results.—Tombstone Prospector.

Dr. P. B. Purcell came in yesterday from the Silver Hill district. The Star is pleased to record the fact that the doctor has made what promises to be a very rich strike in his "Wind Up" mine which he located last summer. It is located about a mile from Liberty Clark's famous silver mine. At a depth of 35 feet he has struck what seems to be a permanent vein of ore averaging from 8 to 18 inches in width. The yield of which will be from \$400 to \$900 per ton as judged from the product of the Liberty mine. The "Wind Up" at point of development has good walls. The hanging of porphyry and bluelime for the foot wall. Dr. Purcell brought some beautiful samples which speak for themselves. He will commence extracting ore for shipment at once. Liberty Clark is doing development work on his mine. He has a large quantity of high grade ore stripped, several car loads, which he will extract and ship as soon as there is an advance in silver. This ore yields him a return of from \$400 to \$600 per ton, at his last shipment shows. Mr. Clark says the silver is just as safe in the mine as in the bank and he can afford to allow it to remain there several months, taking the chance of its advance in price. Mr. Clark came in with Dr. Purcell and was engaged in purchasing a stock of merchandise yesterday. He returns today to Silver Hill.—Star.
